

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	31 January 2025
Team ID	SWTID-2026-6425
Project Name	EduGenie – AI-Powered Learning Assistant
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization:

Brainstorming for EduGenie focuses on possible ways to solve the identified student learning problem. The ideas are grouped around the core learning activities already supported by the project.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Selected Problem: Students need a single lightweight learning interface instead of separate tools for common study activities.

Step-2: Brainstorm, Idea Listing and Grouping

Idea Group	Brainstormed Ideas
Learning Support	Ask a Question; Explain a Topic; Summarize Text
Practice	Generate Quiz; Validate quiz answers; Provide explanations
Guidance	Recommend Learning Path; Select learner level
User Experience	Single web interface; Simple input and result areas; Copy generated text
Technical Support	Gemini integration; Input validation; Health-check endpoint; Controlled AI-service errors

Step-3: Idea Prioritization

Idea	Importance	Feasibility	Priority Reason
Ask a Question / Explain a Topic	High	High	Core learning assistance and directly supported by the application.
Generate Quiz	High	High	Provides structured practice with three questions and four options each.
Summarize Text	High	High	Supports quick study of provided material.
Recommend Learning Path	High	Medium	Provides guided learning stages based on learner level.
Health Check & Error Handling	Medium	High	Supports reliable operation and controlled AI-service failures.

Selected Direction: Combine the main learning activities into one simple EduGenie interface powered by Google Gemini.
