

Ideation Phase

Define the Problem Statements

Date	31 January 2025
Team ID	SWTID-2026-6425
Project Name	EduGenie – AI-Powered Learning Assistant
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create problem statements from the student's point of view, focusing on the learning challenges that EduGenie is intended to address.

Problem Statement	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	a student	understand topics, practise questions, and study from one place	common learning activities are separated across different tools	there is no single lightweight interface combining question answering, explanations, quizzes, summaries and learning guidance	overwhelmed and less focused
PS-2	a learner	follow a clear learning path based on my level	I may not know what to learn next or how to structure my practice	learning activities can lack a simple guided sequence	uncertain about the next step in learning

EduGenie Problem Focus: Provide a single, simple web-based learning interface that brings together question answering, topic explanation, quiz generation, summarization and learning-path recommendations.
